A message from Dr. Karen DeSalvo, Health Commissioner for the City of New Orleans

In keeping with Mayor Mitch Landrieu's commitment to improve the quality of life for the citizens of New Orleans and our vision for a healthier city, the Mayor and I are pleased to present this Primary Care Resource Guide. In it you will find a comprehensive inventory of all primary care locations in the Greater New Orleans area.

In our region, we are fortunate to have a robust network of community health centers that arose after Hurricane Katrina. Many of these centers are nationally recognized for quality and offer health care services to everyone in our community regardless of insurance status or ability to pay, and are culturally, linguistically, financially and geographically accessible to all. I want to thank all of these providers, and our supportive partners who make access to such care possible.

Through empowering residents with information about where they can find care, we can improve the health of our population. We invite and encourage you to use this valuable information to help enhance your health knowledge of available primary care resources in our region and make informed choices about care for you and your loved ones.

Sincerely,

Karen B. DeSalvo, MD, MPH, MSc

Health Commissioner, City of New Orleans

About the Greater New Orleans Primary Care Safety Net

In the eight years since Hurricane Katrina, the primary care safety net in our region has grown significantly and rapidly. The Greater New Orleans Region primary care safety net now boasts 25 organizations operating 69 sites in Orleans, Jefferson, St. Bernard and Plaquemines Parishes, primarily serving uninsured, under-insured, and low-income residents regardless of insurance status or ability to pay. This neighborhood based network has made it easier for community members to seek high quality primary care.

These sites vary in ownership, scope and size, yet all share a commitment to serve everyone. They include mobile units, school-based health clinics, residency training sites, and those who serve special populations such as HIV-positive and homeless individuals. In 2012, this safety net served over 250,000 patients in our community. The network of community-based health centers and clinics that make up the safety net in this region has been lauded as a successful model for the nation by U.S. Department of Health and Human Services (HHS) Secretary Kathleen Sebelius.

The Health Insurance Marketplace

The Marketplace is a tool to help you find insurance that is right for you at an affordable price. It will help uninsured and under-insured individuals and families find all the information they need about available health plans in one place. Most people who use the Marketplace will also qualify for tax credits, which work like discounts to lower the cost of the health plan they purchase.

You may qualify for lower costs on the Marketplace if you:

- Are uninsured and are not offered health insurance through your job
- Are a U.S. citizen or permanent resident
- Have a household income between $11,490 - $45,960 as an individual or between $23,550 - $94,200 as a family of four.
- You can see what you qualify for at the Marketplace website: www.HealthCare.gov

Health Plans on the Marketplace

- The plans available on the Marketplace are all offered by private health insurance companies.
- Every plan will cover check-ups, hospital care, and prescription drugs, as well as labs, maternity care, mental health care, pediatric care, rehabilitative services, and vision and dental care for children.

How to Enroll

- Open enrollment in Marketplace plans began on October 1, 2013 and closes on March 31, 2014. Enroll by December 23, 2013 to make sure your coverage starts on January 1.
- To find out more, go to www.healthcare.gov or www.nola.gov/marketplace.
