School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of Bonnabel Magnet Academy High School’s responses on the Louisiana’s Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school’s School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

Bonnabel Magnet Academy High School’s School Climate Score is 51. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 23% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 39% High Expectations/Caring Relationships; 27% Opportunities for Meaningful Participation; 14% Safety Perceptions; and 14% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 59% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 55% No Physical Violence Perpetration; 37% No Physical & Emotional Violence Victimization and Harassment; and 84% No Substance Use at School.

Bonnabel Magnet Academy High School’s Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school’s Attendance Rate is 90. Bonnabel Magnet Academy High School’s Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. Bonnabel Magnet Academy High School’s Discipline Rate is 93.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 73% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 71% of your students reported they were not harassed and/or bullied at school within the past 12 months. 10% of your students reported a high level of connectedness to school, and 20% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I’m a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff’s perceived level of support and safety, in addition to parents’ perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 73% of your staff reported high levels of perceived support, and 60% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents’ contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 38% of parents reported high levels of input and 38% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

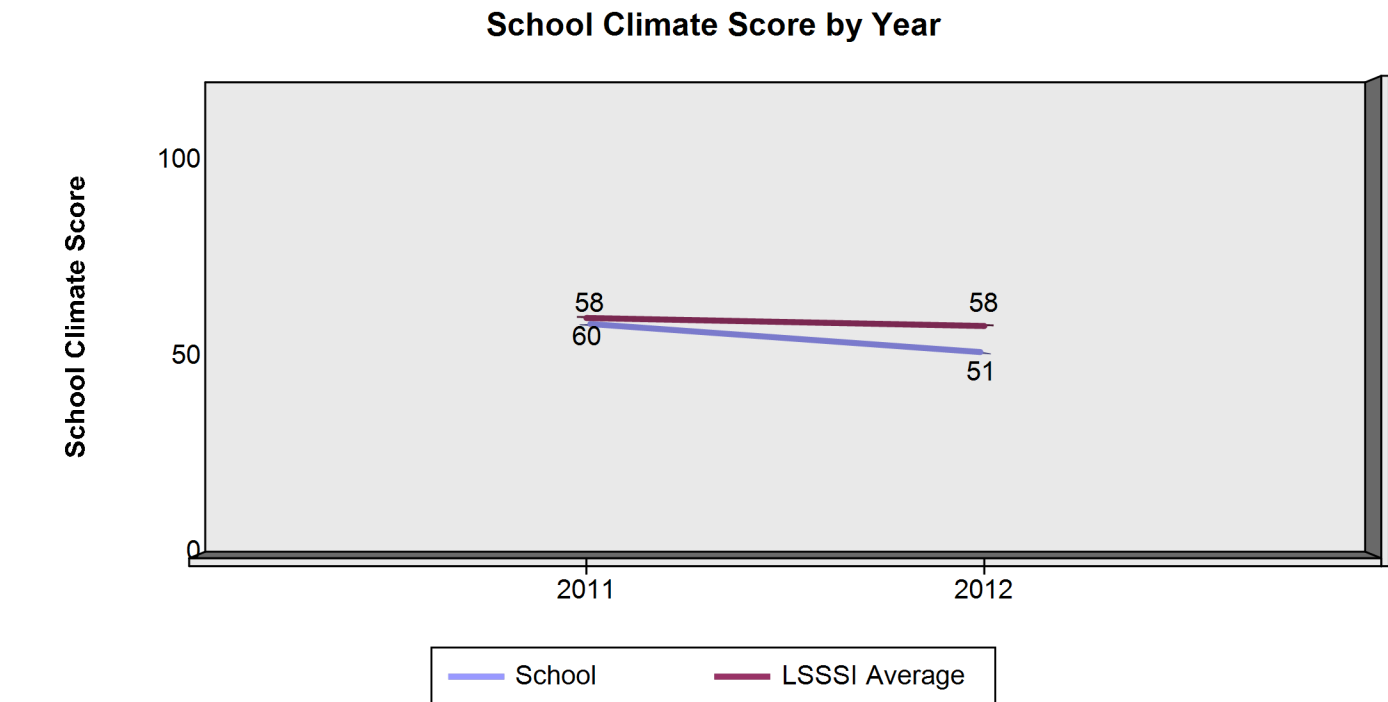

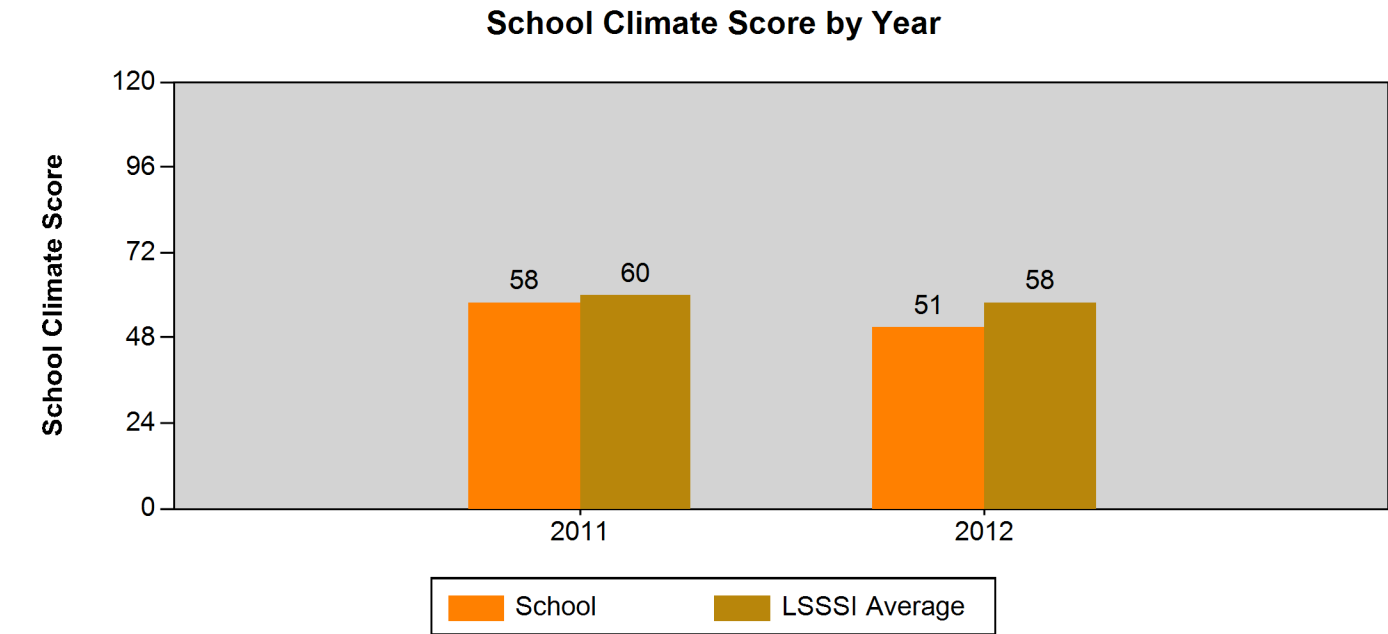

¹ Lack of information to determine score.

² Any blank items on the School Climate Report Card and this narrative indicate that fewer than five respondents completed the survey; thus, no data can be reported.

School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of Douglass Academy for Career Preparation's responses on the Louisiana's Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school's School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

Douglass Academy for Career Preparation's School Climate Score is 63. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 48% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 61% High Expectations/Caring Relationships; 59% Opportunities for Meaningful Participation; 50% Safety Perceptions; and 23% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 66% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 63% No Physical Violence Perpetration; 56% No Physical & Emotional Violence Victimization and Harassment; and 80% No Substance Use at School.

Douglass Academy for Career Preparation's Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 84. Douglass Academy for Career Preparation's Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. Douglass Academy for Career Preparation's Discipline Rate is 92.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 74% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 78% of your students reported they were not harassed and/or bullied at school within the past 12 months. 20% of your students reported a high level of connectedness to school, and 55% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I'm a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff's perceived level of support and safety, in addition to parents' perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 100% of your staff reported high levels of perceived support, and 89% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents' contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 100% of parents reported high levels of input and 100% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

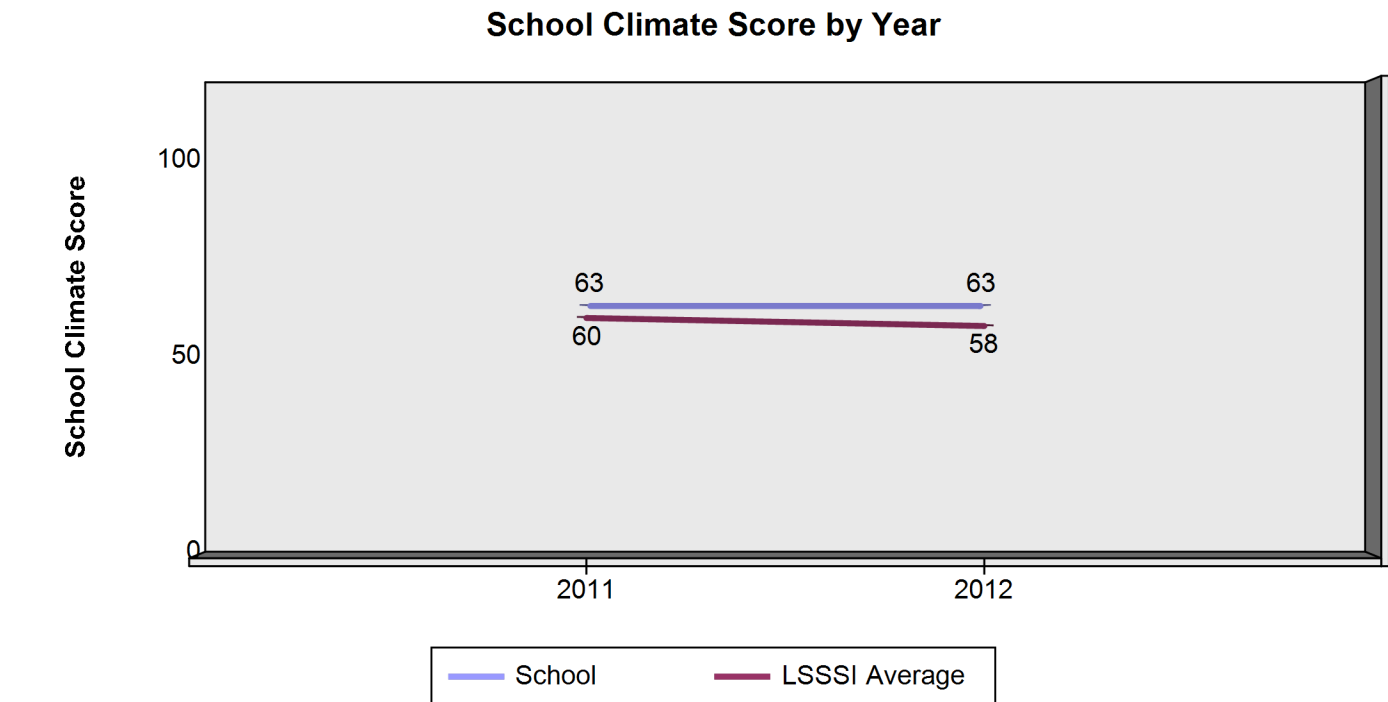

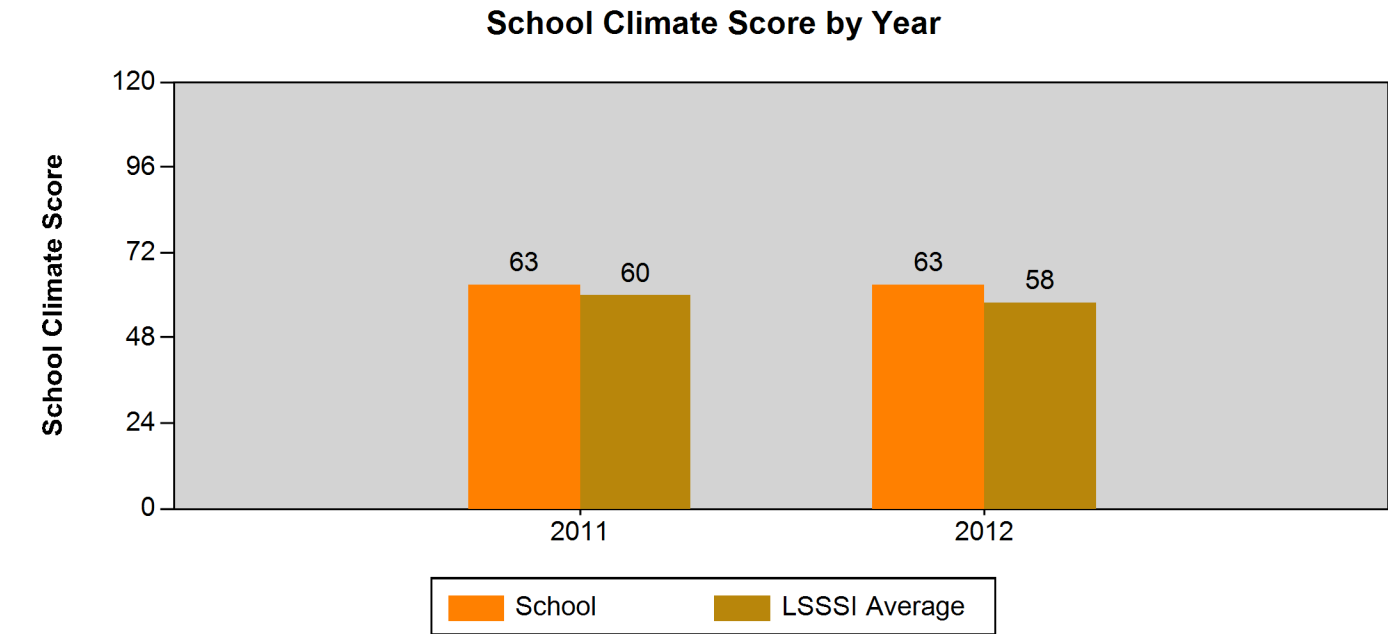

¹ Lack of information to determine score.

² Any blank items on the School Climate Report Card and this narrative indicate that fewer than five respondents completed the survey; thus, no data can be reported.

School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of Grace King High School's responses on the Louisiana's Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school's School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

Grace King High School's School Climate Score is 59. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 38% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 53% High Expectations/Caring Relationships; 34% Opportunities for Meaningful Participation; 39% Safety Perceptions; and 26% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 62% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 61% No Physical Violence Perpetration; 39% No Physical & Emotional Violence Victimization and Harassment; and 86% No Substance Use at School.

Grace King High School's Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 91. Grace King High School's Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. Grace King High School's Discipline Rate is 95.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 68% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 68% of your students reported they were not harassed and/or bullied at school within the past 12 months. 24% of your students reported a high level of connectedness to school, and 47% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I'm a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff's perceived level of support and safety, in addition to parents' perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 91% of your staff reported high levels of perceived support, and 89% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents' contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 45% of parents reported high levels of input and 69% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

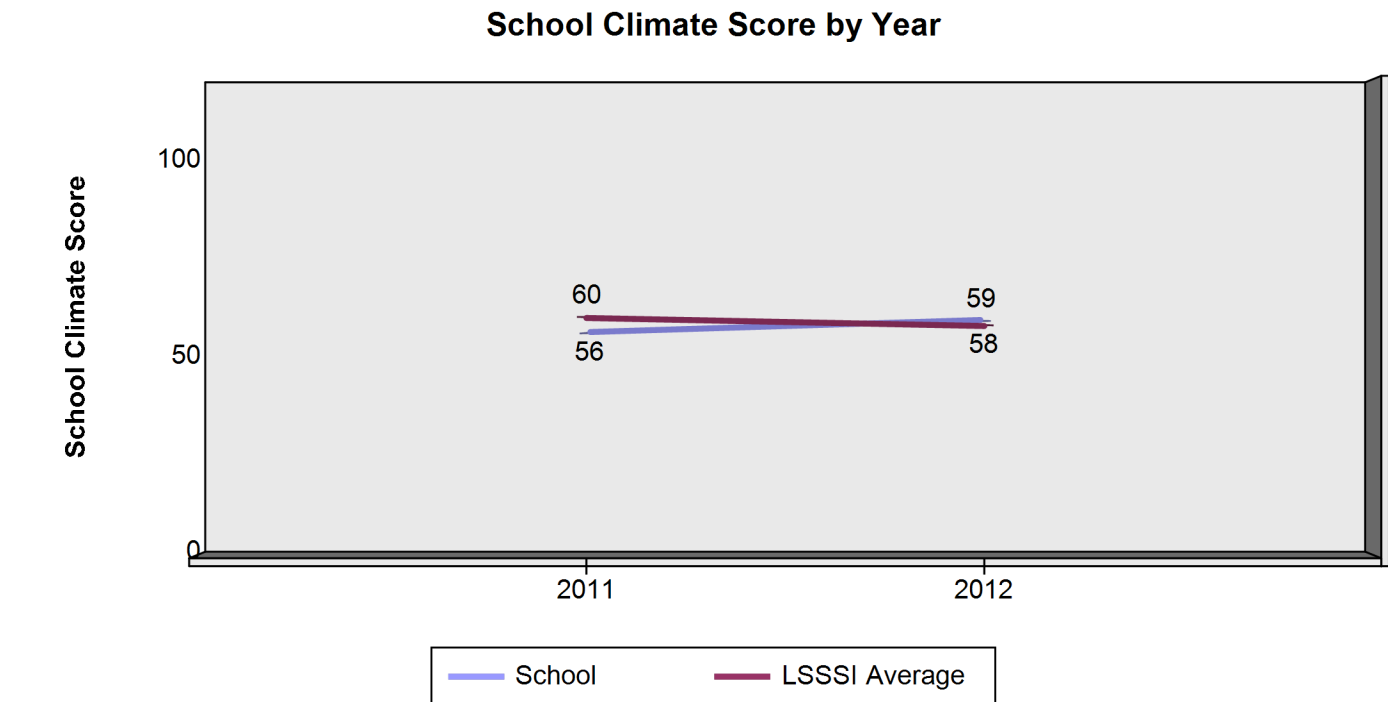

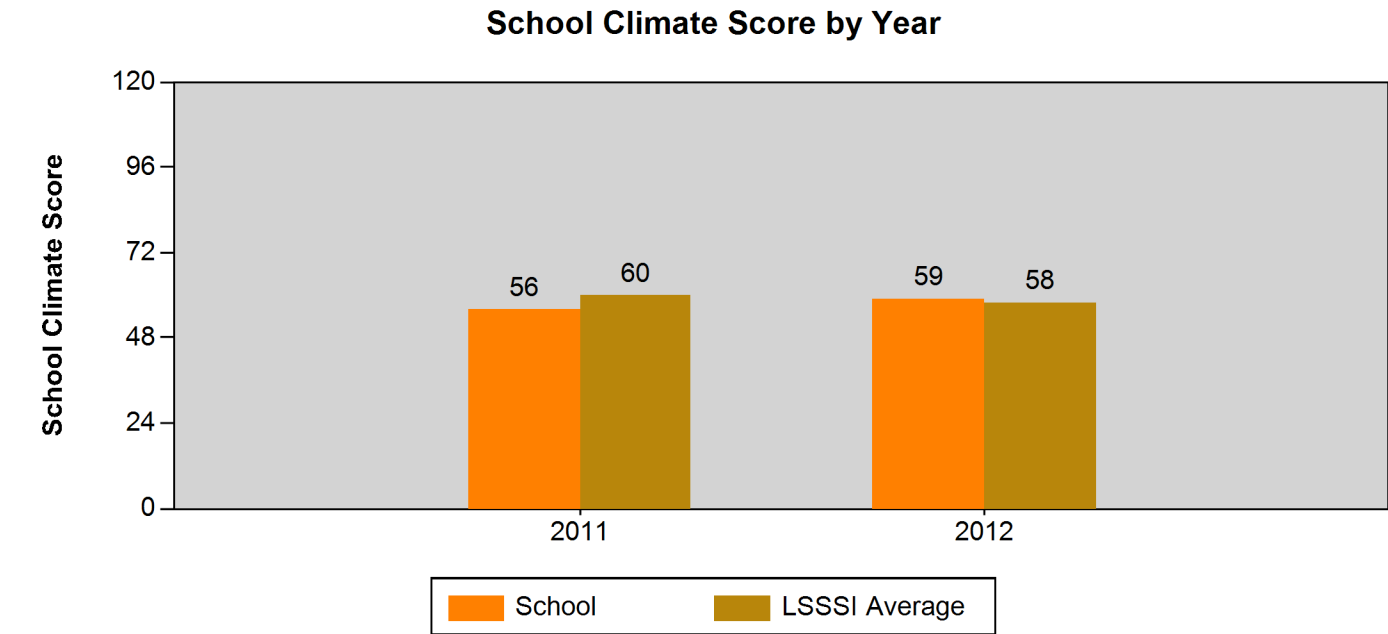

¹ Lack of information to determine score.

² Any blank items on the School Climate Report Card and this narrative indicate that fewer than five respondents completed the survey; thus, no data can be reported.

School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of Helen Cox High School's responses on the Louisiana's Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school's School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

Helen Cox High School's School Climate Score is 54. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 29% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 43% High Expectations/Caring Relationships; 31% Opportunities for Meaningful Participation; 25% Safety Perceptions; and 16% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 62% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 60% No Physical Violence Perpetration; 40% No Physical & Emotional Violence Victimization and Harassment; and 84% No Substance Use at School.

Helen Cox High School's Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 93. Helen Cox High School's Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. Helen Cox High School's Discipline Rate is 89.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 68% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 77% of your students reported they were not harassed and/or bullied at school within the past 12 months. 14% of your students reported a high level of connectedness to school, and 34% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I'm a part of this school' and 'I feel safe in my school'.

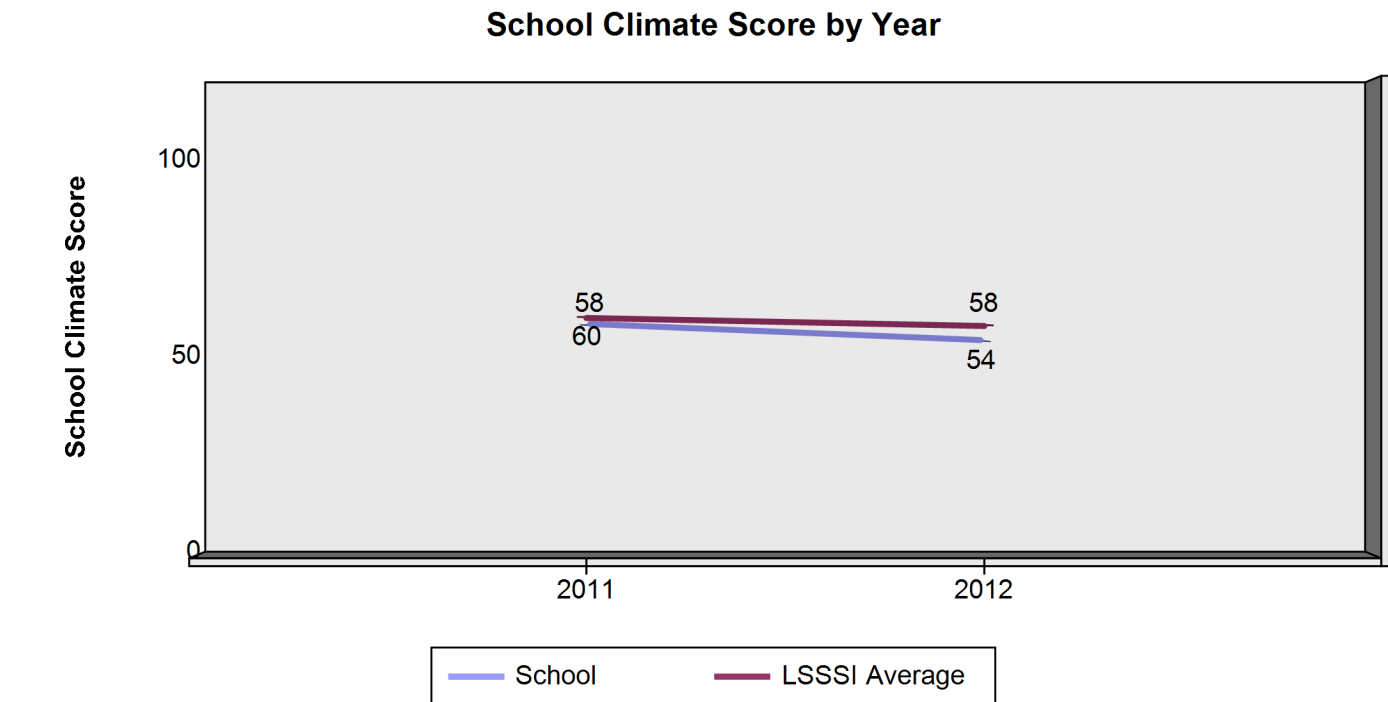

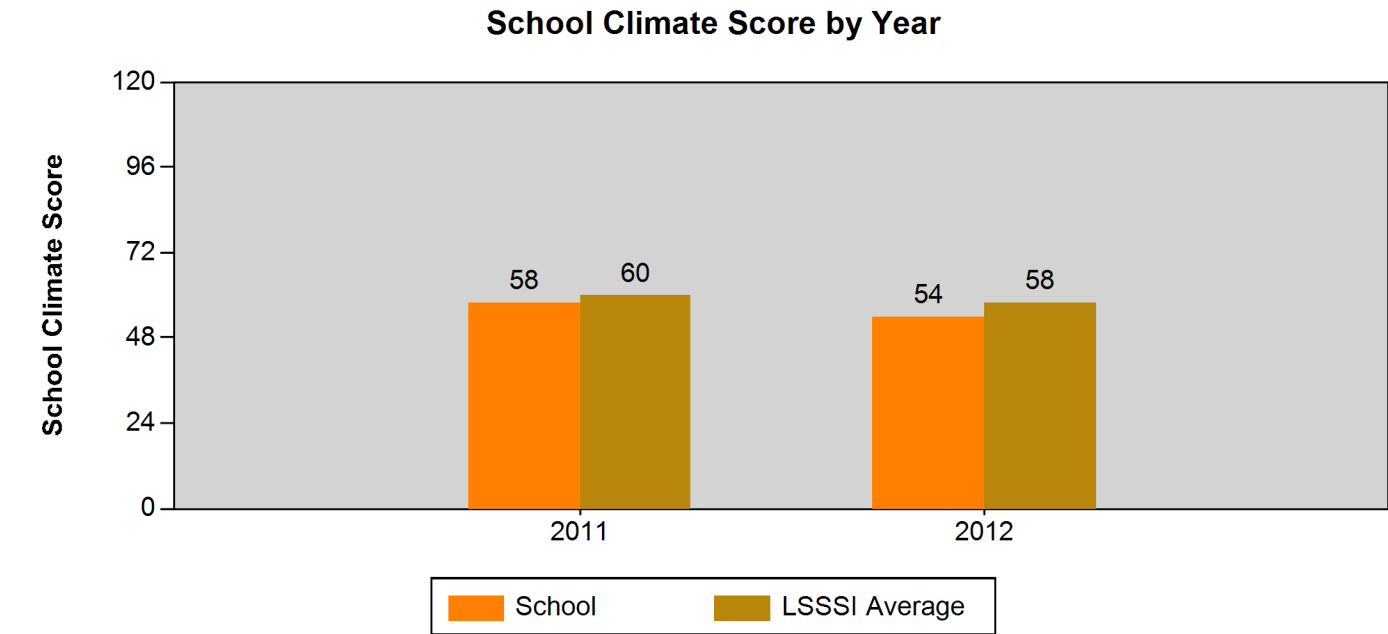

Data was also collected regarding staff's perceived level of support and safety, in addition to parents' perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 96% of your staff reported high levels of perceived support, and 89% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents' contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 90% of parents reported high levels of input and 82% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

¹ Lack of information to determine score.
² Any blank items on the School Climate Report Card and this narrative indicate that fewer than five respondents completed the survey; thus, no data can be reported.

School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of John Ehret High School's responses on the Louisiana's Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school's School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

John Ehret High School's School Climate Score is 53. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 26% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 41% High Expectations/Caring Relationships; 25% Opportunities for Meaningful Participation; 21% Safety Perceptions; and 15% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 62% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 61% No Physical Violence Perpetration; 44% No Physical & Emotional Violence Victimization and Harassment; and 81% No Substance Use at School.

John Ehret High School's Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 93. John Ehret High School's Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. John Ehret High School's Discipline Rate is 90.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 67% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 75% of your students reported they were not harassed and/or bullied at school within the past 12 months. 12% of your students reported a high level of connectedness to school, and 29% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I'm a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff's perceived level of support and safety, in addition to parents' perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 87% of your staff reported high levels of perceived support, and 74% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents' contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 73% of parents reported high levels of input and 67% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of L.W. Higgins High School's responses on the Louisiana's Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school's School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

L.W. Higgins High School's School Climate Score is 56. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 30% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 46% High Expectations/Caring Relationships; 32% Opportunities for Meaningful Participation; 26% Safety Perceptions; and 17% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 64% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 62% No Physical Violence Perpetration; 44% No Physical & Emotional Violence Victimization and Harassment; and 85% No Substance Use at School.

L.W. Higgins High School's Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 91. L.W. Higgins High School's Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. L.W. Higgins High School's Discipline Rate is 90.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 70% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 74% of your students reported they were not harassed and/or bullied at school within the past 12 months. 15% of your students reported a high level of connectedness to school, and 35% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I'm a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff's perceived level of support and safety, in addition to parents' perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 89% of your staff reported high levels of perceived support, and 84% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents' contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 76% of parents reported high levels of input and 59% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

Martyn Academy for Career Preparation’s School Climate Score is 65. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 55% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 76% High Expectations/Caring Relationships; 68% Opportunities for Meaningful Participation; 43% Safety Perceptions; and 35% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 69% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 73% No Physical Violence Perpetration; 70% No Physical & Emotional Violence Victimization and Harassment; and 65% No Substance Use at School.

Martyn Academy for Career Preparation’s Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 61. Martyn Academy for Career Preparation’s Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. Martyn Academy for Career Preparation’s Discipline Rate is 90.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 62% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 89% of your students reported they were not harassed and/or bullied at school within the past 12 months. 32% of your students reported a high level of connectedness to school, and 43% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I’m a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff’s perceived level of support and safety, in addition to parents’ perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 100% of your staff reported high levels of perceived support, and 91% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents’ contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. ²% of parents reported high levels of input and ²% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

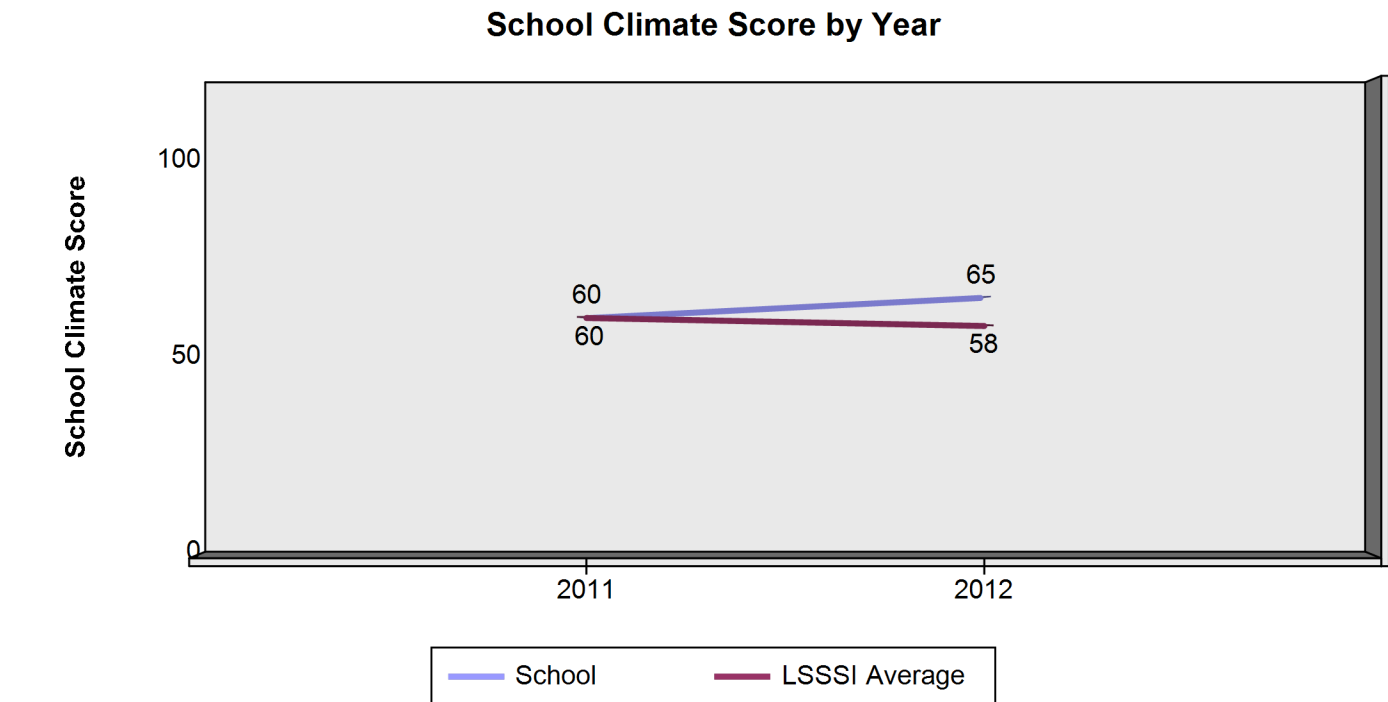

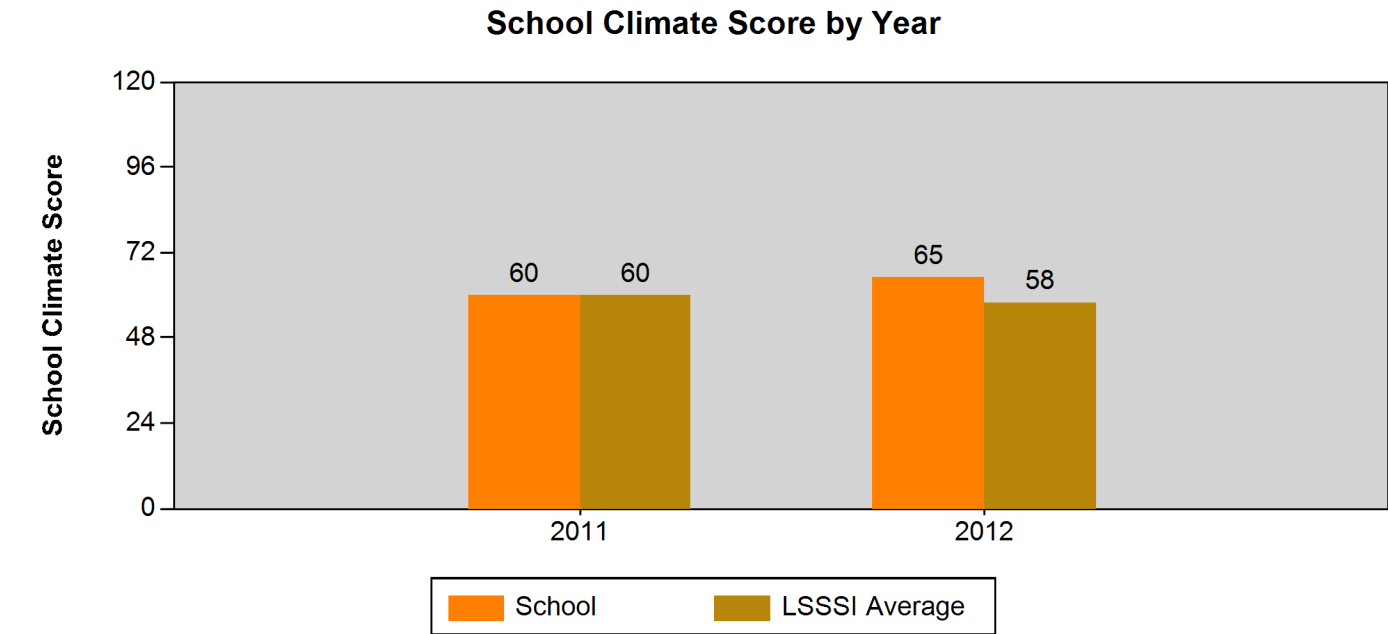

¹ Lack of information to determine score.

² Any blank items on the School Climate Report Card and this narrative indicate that fewer than five respondents completed the survey; thus, no data can be reported.
