School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of Belle Chasse High School's responses on the Louisiana's Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school's School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

Belle Chasse High School's School Climate Score is 62. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 42% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 48% High Expectations/Caring Relationships; 38% Opportunities for Meaningful Participation; 55% Safety Perceptions; and 25% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 66% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 68% No Physical Violence Perpetration; 38% No Physical & Emotional Violence Victimization and Harassment; and 91% No Substance Use at School.

Belle Chasse High School's Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 96. Belle Chasse High School's Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. Belle Chasse High School's Discipline Rate is 96.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 59% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 71% of your students reported they were not harassed and/or bullied at school within the past 12 months. 26% of your students reported a high level of connectedness to school, and 64% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I'm a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff's perceived level of support and safety, in addition to parents' perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 99% of your staff reported high levels of perceived support, and 95% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents' contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 80% of parents reported high levels of input and 88% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

¹ Lack of information to determine score.

² Any blank items on the School Climate Report Card and this narrative indicate that fewer than five respondents completed the survey; thus, no data can be reported.

School Climate Report Card - Spring 2012

Louisiana Safe and Supportive Schools Initiative-LSSSI

This narrative report provides results of Phoenix High School's responses on the Louisiana's Safe and Supportive Schools Student, Staff, and Parent Surveys, from the following districts: Caddo, East Baton Rouge, Lafayette, Lafourche, Jefferson, Plaquemines, Tangipahoa, and Terrebonne. This report should be used as a reference tool that accompanies your school's School Climate Report Card. The narrative report includes an explanation of the School Climate Score domains and the Safe and Supportive Schools Outcome Measures. These results will help inform decisions regarding the prevention needs of youth in your school and should be used to help guide program decision making to meet those needs.

School Climate Score.

The School Climate Score is a global, school-level measure assessing Supports & Engagement (40%); Violence, Victimization, & Substance Use (40%); Attendance Rate (10%); and Discipline Rate (10%). Each score ranges from 0 to 100 with high scores representing perceptions of more positive school climates; higher levels of supports and engagement; lower levels of violence, victimization, and substance use; higher attendance rates; and lower discipline rates. Data for calculation of the School Climate Score were gathered through student survey and collection of incident data from the Student Information System (SIS).

Phoenix High School's School Climate Score is 69. Supports & Engagement measures how safe and supportive students perceive their school environment to be and how engaged they are in school activities. 47% of students report high Supports and Engagement. The Supports & Engagement score is reported as an average of the following four subdomain scores: 58% High Expectations/Caring Relationships; 42% Opportunities for Meaningful Participation; 53% Safety Perceptions; and 34% School Connectedness. No Violence, Victimization, & Substance Use measures the prevalence of violence perpetration/victimization and substance use at school. 76% students reported no Physical Violence, Victimization, and Substance Use on school property. The No Violence, Victimization, and Substance Use score is reported as an average of the following three subdomain scores: 86% No Physical Violence Perpetration; 59% No Physical & Emotional Violence Victimization and Harassment; and 83% No Substance Use at School.

Phoenix High School's Attendance Rate reflects the percentage of time the average student is present within the total number of instructional days. Your school's Attendance Rate is 94. Phoenix High School's Discipline Rate reflects the percentage of students NOT suspended and/or expelled at least once during the school year for drugs, weapons, and/or violence. Phoenix High School's Discipline Rate is 100.

Safe and Supportive Schools Outcome Measures.

The Safe and Supportive Schools Outcome Measures assess current alcohol use, harassment/victimization, and students perceived level of connectedness and safety. 'No 30-day alcohol use' provides the percentage of your students who reported no alcohol use. 66% of your students reported no alcohol use within the past 30-days. 'Not harassed and bullied at school' provides the percentage of your students who reported that they were not harassed and/or bullied at school based on their race, ethnicity, gender, religion, sexual orientation, or disability. 88% of your students reported they were not harassed and/or bullied at school within the past 12 months. 36% of your students reported a high level of connectedness to school, and 66% of students reported a high level of perceived safety at school. 'High' levels of connectedness and safety are defined as agreeing or strongly agreeing to items such as 'I feel like I'm a part of this school' and 'I feel safe in my school'.

Data was also collected regarding staff's perceived level of support and safety, in addition to parents' perceived level of input and school safety. Any blank, darkened items on the School Climate Report Card indicate that fewer than five respondents completed the survey; thus, no data can be reported. On the staff survey, 'School is a supportive and inviting place to learn' and 'School is a safe place for staff' provides the percentage of your staff who reported high levels of perceived support and safety. 86% of your staff reported high levels of perceived support, and 100% of your staff reported high levels of perceived safety. On the parent survey, 'School allows input and welcomes parents' contributions' and 'Perception of Safety' provide the percentages of parents who reported high levels of input and perceived school safety. 85% of parents reported high levels of input and 85% perceived safety. 'High' levels of perceived support, input, and safety are defined as agreeing or strongly agreeing to items such as 'This school is a supportive place for students to learn', 'This school is a safe place for staff', and 'This school is a safe place for my child'.

¹ Lack of information to determine score.

² Any blank items on the School Climate Report Card and this narrative indicate that fewer than five respondents completed the survey; thus, no data can be reported.
